**DETAILED ACTION**

***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 20-22 and 24 are rejected under 35 U.S.C. 102(b) as being anticipated by Strauss. Strauss discloses a container including a lid 9, 9 formed of at least two “parts”, i.e. one section 9 of the lid is formed of at least two “parts”. The lid 9, 9 covers the top opening of the container and is capable of being positioned with one section 9 covering a portion of the top opening and the other section 9 open. The handle 12 includes first and second slots capable of engaging with first and second tabs 19 on the container to secure one of the lid sections 9 in the partially covering second position of the lid as claimed. With respect to claim 24, the fold lines 10, 10 enable folding the lid upon itself when the tabs and slots are secured.

***Claim Rejections - 35 USC § 103***

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claim 27 is rejected under 35 U.S.C. 103(a) as being unpatentable over Strauss in view of Powell. Strauss discloses all structure of the claimed container except a second container within the first container. Powell teaches the well known concept of packaging smaller containers

within a larger container. It would have been obvious to package a smaller container within the larger container of Strauss as taught by Powell as a mere choice of what one wishes to package within the container. The selection of one or more smaller containers as contents for a larger container is a notoriously well known concept in this art.

***Allowable Subject Matter***

5. Claims 1-7, 25 and 26 are allowed.

***Response to Arguments***

6. Applicant's arguments with respect to claims 20-22, 24 and 27 have been considered but are moot in view of the new ground(s) of rejection.

***Conclusion***

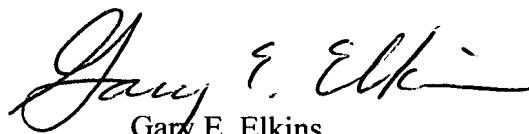

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
